

Process of Applying for an NAS PAS 82

- You will be able to pay online by credit card (or you can call us if you prefer to pay by another method)
- Then you will be issued with log in details to complete the online assessment (this usually happens the same day, by email), you can start completing the assessment straight away.
- We will call you within the first couple of days to ensure that you are happy with using the system and aren't having any problems of any kind.
- You will need to answer the questions and upload evidence where required (copies of policies etc.).
- Once this is done you can submit your assessment to us, which means it automatically gets sent to an appropriate assessor who will review the information you have provided.
- You will get notification of the results quite quickly (via email), our target is 5 days but in practice it's usually quicker than that.
- If you haven't met the required standard for whatever reason you will get comments back from the assessor in the form of a gap analysis so you can address any outstanding issues and re submit.

We do have telephone support available throughout the process though to assist you. Once you have met the required standard you will receive a certificate which will be issue by the NAS.
